Hi Chris,

Included are my suggestions. Yes, I think you can contact [REDACTED] He told me about the types of tires they process, and technology they use. He also gave us an invitation to visit his facility that I never really closed the loop on, so I think this is a good opportunity to tell him that we appreciated his offer, but that due to limited resources we were only able to see a certain number of facilities and therefore, did not take him up on the offer. Nevertheless, we are certainly appreciative of his offer and the information exchange around the tires, machinery and technology they use for processing into tire crumb. And then all the rest, per your script.

Hi Ksenija,

Here are the talking points I put together. Let me know if you have any changes or modifications. Would you like me to reach out to [REDACTED] as well?

Thanks,
Chris
